

Month 3 - Survey

ID:
Name:
Practice

Congratulations! You've now been working with the registry for 3 MONTHS, which is midway through the pilot.

You have just worked on the registry again for 60mins - some of the questions pertain to the recent review you have just done but some will reference your overall review from the start.

We want to continue to understand your experiences.

1. Indicate the extent to which you agree with the following statements at month 3

	Strongly disagree	Disagree	No opinion or not applicable [#]	Agree	Strongly agree
Accessing the registry:					
a) I had no difficulty locating the register					
b) I had no problems logging onto the registry					
On review of the quality indicator data for your practice, within the registry:					
c) It was easy to identify care gaps for our cancer patients					
d) Our performance across many indicators was good					
e) We have room to improve on some indicators					
f) We have room to improve on many indicators					

use this option if you aren't sure (yet)

2. When you looked at the register in more detail, this time round, which indicators did you select for review?

Select all the indicators that you reviewed (drop down list)

3. Since week 2's activities and reviewing the registry again at month 3, what actions are you and/or colleagues undertaking?

Select all the actions - Tick one column for each action

ACTION	Yes - we did/are doing	No - but we are considering this	No - not doing this
Refreshed our list of patients not meeting quality indicators			
Reviewed/updated lists of patients not meeting quality indicators			
Reviewed patient records related to those not meeting quality indicators			

Identified tasks our practice needs to undertake			
Held further discussions with practice team members (clinical/nonclinical)			
Other - please specify _____			

4. After a **detailed review** of the registry, quality improvement work was undertaken:

Yes/No

5. What **quality improvement work** is your practice undertaking as a result of reviewing the data from the cancer care registry?

Select all the work that you are doing - Tick one column for each item

WORK	Yes - doing/will be doing	No - but we are considering this	No - not doing this
Improving data quality and completing coding			
Requesting data from patients e.g. sms request for data X			
Patient reviews/recalls e.g. booked telephone consultation			
Giving patient support			
Delivery of patient education			
Improving the process for cancer care review delivery			
More coordinated care			
Other (please specify)			

6. Workflow impact - Who is taking forward the quality improvement work based on the data review from the registry?

- I will undertake the work (no-one else)
- Other GP colleague/s
- Other healthcare professionals in the practice?

- Who?
- Administrative team members
- Collaborative effort involving mixed clinical and admin team
- Other, please specify?

7. At month 3 now, what key piece of insight have you gained from reviewing your cancer patient data through the lens of a registry? Feel free to reflect on the insight you identified at week 2.

8. Any other comments

Please use this space to share any comments e.g. suggestions for improvement or your experiences on accessing the registry, interpreting the data, forming a quality improvement plan.
