Your guide to Lung Cancer Screening

Easy read

Lung Cancer Screening

Screening can find problems early.

Early treatment works best.

If eligible, you get a **letter** from the NHS.

You have a **telephone appointment** with a member of the team.

If screening is right for you, you have a **quick and safe CT scan.**

After the scan.

You get your **results** by phone or post.

If something needs checking, **a member of the team will contact you.**

What you need to do.

Look out for your NHS letter.

**Answer the phone for your
telephone appointment.**
